1. Claims 37 and 38 are allowable.
2. Claims 1-36 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In each of claims 1, 5, 29, 39, 40 and 42 is unclear what is being claimed by "low oxygen content" or "low content of oxygen" since the disclosure does not explicitly establish what is meant by "low" and since the term "low" is a relative term. For example, the term "low" would be capable of being applied to the amount of 80% oxygen if 80% oxygen was compared to 90% oxygen.
3. Claims 1-36 and 39-42 would be allowable if rewritten or amended to overcome the rejection under 35 U.S.C. § 112.
